Abstract - This presentation examines the ongoing efforts and strategic initiatives for economicdiversification in Algeria. Historically dependent on the hydrocarbon sector, the Algerian economy iscurrently undergoing a structural transition aimed at promoting non-oil sectors. This work analyzes thelatest trends in economic reforms, the development of the entrepreneurial ecosystem, and the mainchallenges encountered in fostering sustainable growth. It provides a descriptive overview of the futureperspectives for Algeria's economic development.

Index Terms - Algerian economy, Economic diversification, Entrepreneurial ecosystem, Structuraltransition.
